

*Why Suzy
is the Best Cat
in the World*

She likes to sleep on your bed

She keeps you company

She makes you laugh

She's real pretty

She doesn't eat much - she actually conserves her food

She climbs all over you at the computer

She appears to show empathy

She is very photogenic

She has soft fur with funny long strands of white in it

She plays a tune when she walks

Sometimes she will sleep in with you

She's very gentle and she never bites (yet)

And yesterday she smelt like sushi.
